

TINAIO

ROSSO TOSCANA IGT

This wine is made from a selection of red varieties that, we think, better represent each particular vintage. Tinaio is made from Syrah, Sangiovese and Colorino grapes. Organic and biodynamic viticulture.

Harvest: 100% manual

Production area: Wine made with selected grapes from a mix of old and more recent vineyards of Sangiovese, Colorino and Syrah.

Vinification: Slow, natural fermentation on its own yeasts. The wine is unfiltered.

Aging: At the end of fermentation we transfer this wine in a small oak cask (not barrique) to mature for 24 – 36 months before being bottled.

Average annual production: 2,500 bottles.
